WATERPROOF

Your Cyrus Rugged Tablet is able to permanently withstand a dive of up to 1m. Of course, your Cyrus Rugged Tablet is also protected against rain, running water, snow, water vapor and other water related impacts.

**PROTECTED AGAINST
DUST AND DIRT**

Extreme contaminations caused by dirt or mud, as well as severe dust impacts are not able to harm your Cyrus Rugged Tablet. Thanks to the IP68 standard dirt cannot get through to the inside of the case. Instead you may even clean off contaminations with running water.

SHOCKPROOF

Your Cyrus Rugged Tablet is capable of withstanding a 1.50m drop. Dropping your phone from this height can damage neither electronics nor technics. The specially designed plastic housing deflects the kinetic energy.
